RULES UNDER THE CINEMATOGRAPH ACT, 1918.

Section (1)—Rules for permanent cinema installations.

1. These rules, printed in large type together with the name and address of the licensee affixed thereto shall be kept during public entertainment always posted in some conspicuous place at the principal entrance at a height of not more than four feet from the floor so that all persons entering the licensed premises may be acquainted with them. Any breach of these rules should at once be reported to the licensing authority as the case may be.

2. The following fire appliances shall be provided:—

In the enclosure—a bucket of dry sand and a portable fire extinguisher.

In the auditorium—six buckets of water and four portable fire extinguishers of a pattern approved by the licensing authority.

Those appliances shall be so disposed as to be readily available for use. The buckets shall have round bottoms with handles and shall be capable of holding at least two gallons of water. They shall be painted red with the word 'Fire' on them in large black letters in English and the local vernacular.

NOTE.—By 'enclosure' is meant that portion of the building in which the cinematograph apparatus is placed.

3. Before the commencement of each performance the cinematograph operator shall satisfy himself that the fire appliances in the enclosure are in working order.

One or more persons as may be necessary shall be specially nominated to have charge of the fire appliances in the auditorium during the performance.

4. The cinematograph apparatus shall be placed in an enclosure of substantial construction, made of, or lined internally with, fire-resisting material, and of sufficient dimensions to allow the operator to work freely.

5. The enclosure shall be outside the auditorium.

6. The door of the enclosure, and all openings, bushes and joints shall be so constructed and maintained as to prevent, as far as possible, the escape of any smoke into the auditorium. Ventilation shall be provided for the enclosure, but such ventilation shall not communicate direct with the auditorium.

NOTE.—By 'bush' is meant packing inserted in the holes through which the pipes and cables pass in order to render such holes reasonably smoke-proof.

7. The opening through which the necessary pipes and cables pass into the enclosure shall be efficiently bushed.

8. The openings in the front of the enclosure shall not be larger than is necessary for effective projection and observation.

9. Each opening shall be fitted with a screen of fire-resisting material, which can be released from both inside and outside the enclosure in such a way that it automatically closes with a close fitting joint.

10. No unauthorized person shall be allowed to enter the enclosure.

11. Smoking shall not be permitted within the enclosure.

12. No inflammable article shall unnecessarily be taken into, or allowed to remain in, the enclosure.

13. Lanterns shall be placed on firm supports constructed of fire-resisting material.

14. A metal shutter, which can be readily inserted between the source of light and the film gate, shall be provided.

15. Cinematograph projectors shall be fitted with two metal film boxes of substantial construction, and not more than 14 inches in diameter, inside measurement, from which the films shall be caused to travel. The film boxes shall be made to close in such a manner, and shall be fitted with a film slot so constructed, as to prevent the passage of flame to the interior of the box.

16. Films shall be wound upon spools in such a manner that the wound film shall not at any time reach or project beyond the edges of the flanges of the spool.

17. All films, when not in use, shall be kept in separate closed metal boxes. The storage of films shall be confined to top floors and never below residential floors.

18. Cables for cinematograph lamps shall be taken as separate circuits from the source of supply and from the supply side of the main fuses in the general lighting circuit.

19. An efficient double-pole switch shall be fitted in the cinematograph lamp circuit within the enclosure.

20. When the cinematograph lamp is working the pressure of the current across the terminals of the double-pole switch shall not exceed 110 volts.

21. Within the enclosure the insulating material of all electric cables, including those leading to illuminating lamps, shall be covered with fire-resisting material.

22. All resistances, with the exception of a resistance for regulating purposes, shall be placed outside the enclosure and, if reasonably practicable, outside the auditorium. If inside the auditorium they shall be adequately protected by a wire guard or other efficient means of preventing accidental contact.

23 (*a*) The operating enclosure shall be in the charge of a competent operator who shall be not less than 21 years of age, and shall be present in the enclosure during the whole time that the machine is being operated.

(*b*) The operator, shall satisfy himself, before the commencement of each performance, that all cables, leads, connections and resistances are in proper working order.

24 The electric lighting of the premises shall have at least three separate and distinct main circuits as follows:—

(*a*) for the enclosure,

(*b*) for approximate half of the auditorium, passage-ways, stairways, exits and parts of the building open to the public, and

(*c*) for the remaining half of the auditorium, passage-ways, stairways, exits and parts of the building open to the public.

25. The general lighting of the auditorium shall be capable of control from inside the enclosure and also from outside and away from the enclosure.

26. A plan of the wiring shall always be kept in a prominent place in the office of the manager of such building.

27. Whenever required by the licensing authority or a police officer of a rank not lower than that of a sub-inspector a sufficient number of approved oil or candle lights shall be provided for use in case of failure of the electric lighting in the auditorium, gangways, passages and exits. These lights shall be kept burning during the whole time that the public are on the premises.

28. Whenever any illuminant other than electricity is used for the lantern its use and the apparatus for its production shall be subject to the approval of the licensing authority.

29. Ordinarily no open or naked lights shall be allowed, but if the nature of the performance or exhibition absolutely necessitates the use of naked lights, this fact should be mentioned when application is made for a licence.

30. Every cinematograph installation shall be inspected when first erected and once annually by the Government Electrical Inspector or by any officer deputed by him; and the inspecting officer shall certify to the licensing authority that the installation fulfils the requirements of the rules. The Government Electrical Inspector may enter the premises and inspect the cinematograph and other electric plant at any time.

31. It shall be incumbent upon the licensee to comply with such of the provisions of the Indian Electricity Act, 1910, and of the regulations made thereunder as are applicable to the premises. No licence shall be granted until after the notice required under section 30 of the said Act has been given to the 'licensing authority' and the licensing authority has informed the Electrical Inspector of the decision to issue the licence.

32. The licensee shall notify to the licensing authority his intention to add to or alter any portion of the building or any part of the electric installation or of the apparatus for the production of any other illuminant in use in the lantern; this notice shall be communicated by the licensing authority to the Electrical Inspector.

33. Every person intending to open a cinematograph exhibition should make an application in writing—

(a) *if the place of exhibition is in the City of Madras*—to the Commissioner of Police,

(b) *if elsewhere*—to the District Magistrate.

Such application should be accompanied by a plan and description in duplicate of the electrical machinery and cinematograph apparatus and the Commissioner of Police or the District Magistrate, as the case may be, will forward them for approval to the Electrical Inspector who will examine these papers and if necessary make an inspection of the building and plant. If he is satisfied that a licence may issue, he should endorse the application accordingly before forwarding it to the Commissioner of Police or to the District Magistrate, who will make out a licence in the name of the applicant and sign and date it before issue.

No cinematograph exhibition shall be opened until such a licence has been obtained.

34. When the licence is issued a copy of the plan and description forwarded under rule 33 certified by the licensing authority or under his orders shall be attached to the licence. The licence, together with the plan and description or either of them, shall be produced on demand to any police officer not below the rank of sub-inspector or to any person authorized by the licensing authority.

35. The inspections of the Electrical Inspector shall ordinarily be made free of charge to the applicant and should any defects be discovered, written orders shall be issued for their rectification and a reasonable time shall be prescribed for carrying out such orders. A fee of Rs. 16 or such higher fee as the Local Government may direct shall, however, be charged if subsequent inspection should disclose that such orders have not been properly carried out.

36. The licence shall be in Form 'A' attached to these rules. The licensee, his servants and agents shall obey or comply with all orders issued by the Electrical Inspector, the licensing authority or police officers acting on their behalf from time to time or as occasion arises, for the safety or convenience of the public, or for the preservation of order or of the public peace.

37 No building shall be used for cinematograph exhibitions to which the Act applies, unless it be provided with an adequate number of clearly indicated exits so placed and maintained as readily to afford the audience ample means of safe egress, and with a passage of 3 feet width for every 10 rows of seating accommodation. By 'adequate' is meant 2 linear feet of exit way for 450 square feet of sitting space inside.

The seating in the building shall be so arranged as not to interfere with free access to the exits; and the gangways and the staircases and the passages leading to the exits shall, during the presence of the public in the building, be kept clear of obstructions.

38 The following rules shall be observed in providing seating accommodation :—

(1) The angle of elevation, subtended at the eye of any person seated in the front row by the length of the vertical line dropped from the centre of the top edge of the picture to the horizontal plane, passing through the observer's eye shall not exceed 35°, the height of the eye of the person so seated above the floor level being 3' 6".

39 No building shall accommodate more than 20 persons per 100 square feet or more than 20 persons per 3,000 cubic feet.

The entrances, gangways, stage, staircases, etc., should be deducted before calculating the area available. Provided that the licensing authority may, at any time, and from time to time, vary the number of persons to be admitted to the premises or any part thereof.

40. Whenever required by the licensing authority, sufficient and approved artificial means of ventilation shall be provided.

41 The size of the doorways must not be less than 8 feet × 5 feet.

4 Every person intending to start a travelling cinematograph exhibition should make an application in writing to the Electrical Inspector to Government. Such application should be accompanied by a plan and description in duplicate of the electrical machinery and cinematograph apparatus. The Electrical Inspector will examine these papers and, if necessary, make an inspection of the plant. If he is satisfied that the installation is in order, he will prepare a certificate in the name of the applicant which will normally be valid for a year but subject to revocation by the Electrical Inspector within that period. Such certificate shall be sufficient authority so far as the plant is concerned for any licensing authority to grant a licence under section 6 of the Act.

5 No cinematograph exhibition shall be opened unless a licence has been obtained from the Commissioner of Police or the District Magistrate. The licence will be signed by such officer and may embody such conditions as the licensing officer considers desirable.

6. No building shall accommodate more than 25 persons per 100 square feet of space available for sitting or standing. The entrances, gangways, stages, etc., should be deducted before calculating the area available. Provided that the licensing authority may, at any time, and from time to time, vary the number of persons to be admitted to the premises or any part thereof.

7. The eaves of the buildings must be at least 8 feet high.

8. The size of the doorways must be not less than 7' × 5'.

12. No doorstep shall be above the level of the floor of the structure.

13 There shall be gangways or passages not less than 4 feet wide all round the interior of the building and such gangways shall be kept clear.

14. Any galleries must be

(a) strongly built,

(b) provided with access by not less than two stairs or approaches at least 4 feet wide and

(c) divided into separate blocks by clear gangways at least 4 feet wide running from front to rear at intervals of not more than 30 feet apart.

15. Ridge ventilation shall be provided for at least half the total length of the building.

16. No external fencing shall be allowed within 10 feet of the building.

17. No structure of inflammable materials shall be licensed for a longer period than three months at a time.

Section (iii)—Certification of films.

1. Films for certification shall be delivered to the President of the Board constituted for the purpose, who shall himself witness or depute one or more members of the Board to witness an exhibition of the films within a period of seven days from such delivery. In every case when new ballot papers are issued a mark shall be placed against the number of the elector's name in the roll to denote that new ballot papers have been issued in place of those not received, spoilt or lost.

56. No election shall be invalidated by reason that an elector has not received a voting paper provided that a voting paper has been issued to him in accordance with these rules.

57. The scrutiny of the ballot papers shall then take place. 62. (1) If, owing to there being more candidates than there are vacancies, a poll has to be taken, the Returning Officer shall appoint forthwith one or more polling officers for each polling station and may pay them reasonable remuneration for their services. The Returning Officer may also, if necessary, appoint one or more identifying officers to assist the polling officer in identifying the voters. Polling officers shall neither be members for the area for which the poll is to be taken nor registered voters therein.

(2) If, after the taking of a poll has become necessary under sub-rule (1), the number of validly nominated candidates becomes, owing to the death of a candidate or candidates before the poll is taken, equal to or less than, the number of vacancies, election proceedings shall be started afresh and the formalities prescribed in rules 39 to 43 repeated.

63. (1) The polling officer shall keep order at the station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all persons except his own clerks, the candidates or agents whom the candidates may have appointed in writing to appear in their stead at the polling station, the Police on duty, and such persons as may be admitted for the purpose of identifying the electors.

Just before the commencement of the poll the polling officer shall show the ballot box empty to such persons as may be present at the polling station and shall then lock it up and place a seal upon it in such manner as to prevent its being opened without breaking such seal and place it in his view for the receipt of ballot papers and shall keep it so locked and sealed. The key of the ballot box shall also be placed under seal.

65. The Returning Officer shall provide for each polling officer such number of clerks as he may consider desirable and shall supply him with a copy of the electoral roll, a list of the nominations, ballot papers and boxes, and such other papers, stationery and forms as may be necessary.

66. Every ballot paper shall be in Form XV and shall have the names of the candidates printed on it in alphabetical order. If there are two candidates of the same name, they shall be distinguished by the addition of their occupation or in some other suitable way.

67. (1) The name of every person presenting himself to vote and his number on the electoral roll shall be entered in a signature slip maintained in Form XVI, and the voter shall thereafter, if he is literate, sign his name in the column provided for that purpose, or, if he is illiterate, shall fix his thumb-impression thereto.

(2) The voter shall present his slip to the polling officer who, after satisfying himself that it has been duly signed by the voter or impressed with his thumb-mark, shall file it; provided that the polling officer may, if any doubt should arise as to the identity of the voter, require that the slip be attested by any person present who can identify the voter. If there is no such person present, the polling officer shall note on the slip the fact that the voter's identity has been questioned.

(3) Special facilities shall be accorded to women voters who observe the purda system in accordance with the regulations framed by the district board in that behalf.

68. Immediately before a ballot paper—that is the counterfoil of Form XV—is handed over to the voter, the polling officer shall

(i) initial it on the back;

(ii) enter the voter's number in the electoral roll on the corresponding counterfoil of Form XV, and

(iii) affix his initials against the voter's name in the electoral roll.

The polling officer shall then tell the voter how many votes may be given and shall give him the ballot paper.

69. The voter on receiving the ballot paper shall forthwith proceed to the place set apart for the purpose and there mark a cross against the name of the candidate or candidates for whom he intends to vote. He shall then fold up the ballot paper so as to conceal his vote and put it into the ballot box.

70. (1) If the voter is unable to read the ballot paper or to make a cross thereon, and applies for assistance in doing so, the polling officer shall read it for him and, if so required, mark in the presence of the candidates or their agents, if any, the ballot paper according to the directions of the voter and give it to him to put in the ballot box.

(2) In the case of every voter whose ballot paper is marked in this manner by the polling officer, a note shall be made on the corresponding counterfoil of Form XV by the polling officer of the reason why it was so marked.

(3) The marking of a ballot paper by the polling officer under clause (1) shall not be questioned subsequently on the ground that it was not in accordance with the voter's directions.

71. (1) Any ballot paper which is not duly marked or on which votes are given to more candidates than there are members to be elected or on which any mark is made by which the voters may afterwards be identified, shall be invalid.

(2) If more than one cross is placed against any candidate's name, they shall count only as one vote in his favour, provided that the voter has not placed crosses against more candidates than there are members to be elected.

(3) If the cross or any one of the crosses is so placed as to render it doubtful for which candidate such mark is intended to apply, the vote concerned, but not the whole ballot paper in the case where more than one vote can be given on the same ballot paper, shall be invalid, provided again that the voter has not placed crosses against more candidates than there are members to be elected.

72. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the polling officer may ask, be entitled to mark the ballot paper in the same manner as any other voter. The ballot paper (called in these rules a tendered ballot paper) shall, instead of being put into the ballot box, be given to the polling officer, and endorsed by him with the name of the voter and his number on the electoral roll and set aside in a separate packet and shall not be counted by the Returning Officer. The signature or thumb impression of the voter concerned shall be taken on signature slips in Form XVI, but should be attached to their connected tendered ballot papers and separately filed.

73. A voter who has inadvertently dealt with his ballot paper in such a manner that it cannot be conveniently used as a ballot paper may, on delivering it to the polling officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoilt one, the latter one together with its counterfoil being marked as cancelled.

74. Immediately after the close of the poll, the polling officer shall, in the presence of the candidates or their agents, make up into separate packets and seal with his own seal and the seal of such candidates or their agents as may desire to affix their seal—

(1) each ballot box in use at his station unopened;
(2) the keys of such boxes;
(3) the unused and spoilt ballot papers, both ordinary and tendered, with their counterfoils;
(4) the tendered ballot papers with the signature slips attached to them;
(5) the marked copies of the electoral roll and the counterfoils of ballot papers; and
(6) the file of signature slips.

75. The packets shall be forwarded at once by the polling officer to the Returning Officer accompanied by a statement in Form XVII. Each packet shall be numbered and shall bear a note as to its contents.

76. On the day and at the hour appointed for the counting of votes, and in the presence of such candidates or their agents as may be in attendance the Returning Officer shall proceed as follows:—

(a) The ballot box or boxes relating to each polling station shall be opened one after another; the Returning Officer shall take out the papers therefrom, count them or cause them to be counted and record the number thereof in a statement in Form XVIII.

(b) The Returning Officer shall then mix together the whole of the ballot papers of all the ballot boxes. The examination and counting of the votes will then commence. The Returning Officer shall, on every ballot paper which is wholly or partially rejected, endorse the word 'Rejected.' If any candidate or agent present questions the correctness of his rejection order, he shall also record on the ballot paper the grounds of rejection briefly.

(c) The Returning Officer shall, so far as practicable, proceed continuously with the counting of the votes; and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seals of such candidates or their agents as may desire to affix them; and adequate precautions shall be taken for their custody.

77. (1) After the Returning Officer has completed the scrutiny and counting he shall prepare a return of the results of the polling in Form XIX, and, after verifying the totals of the votes with the figures in Forms XVII and XVIII shall, subject to the provisions of rule 81, declare the election of the candidate or candidates to whom most valid votes have been given.

INSTRUCTIONS TO CANDIDATES FOR THE GOVERNMENT DIPLOMA IN ACCOUNTANCY OF THE SYDENHAM COLLEGE OF COMMERCE AND ECONOMICS, BOMBAY.

Regulation No. 4.—

(*A*) *Examinations equivalent to Matriculation.*—Examinations recognized by an Indian University as equivalent to the Matriculation or Entrance examination of that University will be recognized as such by the Accountancy Diploma Board under this Regulation. If the candidate has studied for one or more terms in a college affiliated to an Indian University, a certificate to that effect signed by the Principal of that college will be accepted as proof of the candidate's eligibility for the Diploma course. The previous orders of the Board must be secured by the candidate in other cases.

(*B*) *Attendance certificate.*—The attendance ought to be in an institution *specially* recognized by the Accountancy Diploma Board for purposes of this diploma. The candidate is required to have attended three-fourths of the number of days on which lectures were delivered in each of the two academic years. Should his attendance in either of the two years have fallen short of three-fourths, that particular year will not be counted as a portion of the two years' attendance prescribed by this Regulation. If he has attended the prescribed number of lectures in each of two academic years, but has not been certified as fit to present himself for the examination, he will not be required to attend lectures for a third year, but will merely be required to satisfy the Principal about his fitness to appear for the examination, and to submit his application through the Principal. He may undergo practical training in accounts during such third year, and such training will be counted as a portion of the three years' training prescribed by Regulation No. 12 (*b*).

(*C*) The fee of Rs. 50 must reach the Secretary to the Accountancy Diploma Board, 63 Apollo Street, Fort, Bombay, on or before 31st January. *Fees paid in will on no account be refunded.*

Regulation No. 5.—

Under this Regulation, an under-graduate may, in lieu of attending lectures for two years as prescribed by Regulation No. 4, receive practical training in accounts for two years. He must apply to the Board for the recognition of such practical training and secure the orders of the Board before applying for the examination; the number and date of such order must be quoted in the candidate's application for the examination.

Regulation Nos. 6 and 13.—

When the holder of a *temporary* auditor's certificate applies for the examination under Regulation No. 6 or for the diploma under Regulation No. 13, the period for which the auditor's certificate was granted must not have expired. An application from such a candidate submitted after the expiry of the period for which the certificate was granted will not be accepted by the Board.

Regulation No. 12.—

Practical training.—Every candidate entering on the course of practical training prescribed by this Regulation must submit to the Accountancy Diploma Board an application for the recognition of such practical training, in the prescribed form, copies of which can be had at the office of the Board, Apollo Street, Bombay, such applications must be submitted within sixty days of the commencement of the practical training.

The practical training must be under a Chartered or an Incorporated Accountant or a certified auditor, working as a Public Accountant. It is immaterial whether the candidate has paid a premium for such training or is in receipt of a salary. It is essential that he should be a full-time apprentice and should not be engaged in any other work during the usual office hours.

Chartered and Incorporated Accountants may take and train apprentices without the previous permission of the Government. The holder of a *permanent* (whether restricted or unrestricted) auditor's certificate granted by a Local Government may take and train apprentices, provided he is specially empowered in that behalf by the Local Government of the province where he is practising. The mere fact that the holds a permanent auditor's certificate will not empower him to take apprentices.

The apprenticeship may be served partly under one and partly under another practising accountant, provided it is in each case reported to and recognized by the Accountancy Diploma Board.

Regulation No. 12 (b).—

The practical training in accounts prescribed by this Regulation may be (1) partly before and partly after, or (2) wholly before, or (3) wholly after the candidate passes the Diploma examination of this Board. The course prescribed for an under-graduate covers five years, viz., two years as a student of a recognised institution, *plus* three years' apprenticeship. The practical training in accounts, if any, received by an under-graduate during his two years' attendance at a recognised institution will, therefore, not be reckoned as a portion of the three years' apprenticeship prescribed by the regulation.

Regulation No. 12 (*c*).—

At least two out of the three years' apprenticeship prescribed for graduates must be served after they become graduates.

Number of apprentices.—No practising Accountant will be authorized to take and train *more than two apprentices* at a *time*. But a Chartered or an Incorporated Accountant, in public practice, may, in special cases, be permitted by the Accountancy Diploma Board to take and train NOT more than *four apprentices* at a time.

Auditor's Certificate.—No permanent unrestricted Auditor's certificate will be granted by any Local Government or Administration to a person who does not hold the Government Diploma in Accountancy of the Sydenham College of Commerce and Economics, Bombay. Holders of the Diploma have to apply for a permanent unrestricted Auditor's certificate to the Local Government of the Province where they intend to set up practice.
